SUMMARY

Computer Science undergraduate (8.68 CGPA) with hands-on experience building and shipping full-stack and AI-powered applications through internships and personal projects. Built BookACook, a full-stack cook-booking platform with real-time notifications, payments, and containerized backend infrastructure, and developed an AI Compliance tool during my internship at Sanrekh.ai. Skilled in C++, Python, React Native, Node.js, Express.js, MongoDB, Docker, and Generative AI technologies with a strong foundation in Data Structures & Algorithms, DBMS, and Operating Systems.

TECHNICAL SKILLS

Programming Languages: C++, Python

AI / GenAI: Generative AI, RAG, Prompt Engineering, LangChain, LangGraph

Libraries: NumPy, Pandas, Matplotlib

Developer Tools: React.js, **Docker**, **React Native**, Node.js, Express.js, **Tailwind CSS**, Firebase, HTML, CSS

Software: **GitHub Actions**, Android Studio, Visual Studio Code, **Postman**, **Git**, MS-Office

Databases: SQL, PostgreSQL, **MongoDB**

Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Soft Skills: **Quick Learner**, Ability to work independently and collaboratively, **Problem Solving**

EXPERIENCE

Sanrekh.ai

Sep 2025 - Nov 2025

Full Stack Developer - Internship

Remote

- Built a full-stack AI Compliance tool to ensure AI content meets ethical and regulatory standards effectively.
- Implemented a rule validation feature allowing users to add or upload rules & view them categorized by severity levels.
- Developed the landing page with a clean layout, smooth interactions, and a user-friendly overall experience.

superFi

Dec 2024 - Jun 2025

Full Stack Developer - Internship

Remote

- Built and optimized reusable UI components using React Native and Tailwind CSS, improving code maintainability.
- Implemented a Bookmark feature that allows users to save, organize, and quickly access their preferred content.
- Integrated a Share feature, enabling users to share content across platforms, increasing app visibility and engagement.
- Revamped the Credit Card UI, improving design, accessibility, and navigation for a more intuitive user experience.

PROJECTS

ChatDoc AI

GitHub | Demo

- Tools Used:** Python, FastAPI, LangChain, Google Gemini API, FAISS, React + Vite, Tailwind CSS, GitHub Actions
- Built a conversational PDF Q&A platform supporting multi-PDF uploads and context-aware, multi-turn conversations.
- Implemented RAG with FAISS and Gemini embeddings to retrieve relevant document content and generate answers.

BookACook

GitHub | Demo

- Tools Used:** React Native(Expo), Docker, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase Cloud Messaging
- Developed a dual-module cook-booking application enabling users to browse cooks, book services with integrated payments, and receive booking responses, with the backend containerized using Docker.
- Built real-time FCM-based push notifications to ensure instant booking updates between users and cooks.

Credit Risk Analysis

GitHub | Demo

- Tools Used:** Python, Jupyter, NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, MS-Excel, SMOTE, Streamlit
- Built a model to evaluate the credit worthiness of small businesses using SBA loan data and assess borrower risk.
- Visualized data insights using Matplotlib and Seaborn, and improved model performance by handling class imbalance with Synthetic Minority Oversampling Technique (SMOTE).

EDUCATION

Dayananda Sagar College of Engineering, Bengaluru

2023-current

BE in Computer Science and Engineering

8.68/10

CERTIFICATIONS & ACHIEVEMENTS

- The Complete 2024 Web Development Bootcamp - Angela Yu**
- LeetCode 365 Days Badge:** Maintained a 365+ day problem-solving streak on LeetCode.
- Coding Proficiency:** Solved 440+ problems on LeetCode, demonstrating strong problem-solving skills.
